

Read the text about how the Wright Brothers carried out the first successful flight. Some of the lines are correct. Some have a word that shouldn't be there. Write this word in the box next to the line. If the line is correct put a tick (✓) in the box. The first two lines have been done for you.

1	Airplanes have changed the way people travelled in	have
2	the 20 th century. Flying has become the dominant	✓
3	form of travel just over long distances. The era of	
4	aviation started at the beginning of the 20 th century,	
5	but when two brothers, Orville and Wilbur Wright,	
6	built them the first functioning airplane.	
7	At that time, while people could build gliders, but	
8	nobody could make a plane with an engine to fly.	
9	Every attempt failed and planes crashed down. In	
10	1903 the Wright brothers built a model plane in their	
11	bicycle shop and tested it over in a wind tunnel	
12	which they also built themselves. Then they often	
13	headed to Kitty Hawk, North Carolina, a place which	
14	was known for its strong winds. The plane, was called	
15	<i>The Flyer</i> , had an old engine and wooden propellers.	
16	On a cold December day, Orville climbed into the	
17	plane and has started the engine.	
18	After rolling on the ground for a few seconds then	
19	the plane finally took off and stayed in the air even	
20	for 12 seconds long. It became the first flight in	
21	aviation history.
